Pathways Map

LOS ALTOS HILLS

The Town of Los Altos Hills' Pathway system was designed to provide safe and convenient non-vehicular travel throughout the community. It unites neighborhoods through a series of connecting paths which cross-cross the Town providing access to different areas.

The Path system is a unique recreational asset and is used by school children, walkers, runners, horseback riders and bicyclists. The paths that travel away from the roadways provide a rare glimpse into the natural beauty of the hills.

Observing the 3 Cs - Common Sense, Courtesy, and Communication will make path usage pleasurable. Bicyclists should yield to horseback riders and pedestrians, pedestrians should yield to horseback riders. Not all paths and trails are designed for all uses. Bicyclists usually must stay on hard surface roads and paths. Many of the off-road paths are marked with path markers for easy identification.
