JULY 12-13, Sat. & Sun., Los Altos Arts & Wine Festival, 10 AM-6 PM Downtown Los Altos, Info. Call: 949-5282

NEW TOWN HALL

Residents Prefer Rural!

Peter Duxbury, AIA -
Los Altos Town Hall Architect

The residents have made their choice - the style of the New Town Hall should be rural. The results of the recent resident preference poll on the style for the New Town Hall are: 258 residents preferred the Rural design; 173 favored the Mission; Craftsman received 122 and Sustainable received 83. Approximately 25% of the Town households responded to the survey.

The special New Town Hall Committee determined that the new building should be 8,000 square feet with a budget of \$3.5 million. After the poll had been tabulated, the committee asked the participating architect to submit proposals along with detailed budgets. A proposal from CJW Architecture of Portola Valley was also considered. As part of the proposal stage, the committee focused on budgets and the personal qualities of the architects. After studying all the proposals, contacting references and interviewing three finalists, the committee unanimously selected Duxbury Architects of Los Altos. In addition to designing numerous large and significant residences in Los Altos Hills and the surrounding communities, Peter Duxbury has extensive experience with large commercial and office projects. His warm style along with his impeccable references and intimate knowledge of the Town were important decision factors for the committee. Interestingly although Peter drew the "Craftsman" style rendering for the preference poll, he prefers the rural style as well. Peter states, "As part of the process, I was directed by the committee to come up with a particular interpretation, but I find myself intrigued by the rural design, which ultimately proved to be the most popular with the Town."

Bullis Charter School Update

Many Bullis parents and other members of the Los Altos And Los Altos Hills community continue to work toward the Bullis Charter School. The Bullis Charter School would open up new options for a town-wide LAH elementary school allowing children in both the Palo Alto and Los Altos School Districts areas to attend a truly neighborhood school in Los Altos Hills rather than being forced to drive to district alternatives in other cities. At the Thursday, April 17th LAH Council Meeting, the LAH Town Council voted 5-0 to endorse a town resolution that supports public education in LAH and supports the Bullis Charter School.

At the May 5, 2003 Los Altos School Board of trustees meeting, the district denied the Bullis Charter School application, and the Bullis Charter School group are continuing with appeals at the county and state levels which is very common for new charter schools. **On June 4th at 7 PM there will be a Bullis Charter School status meeting at the Bullis School.** Check the Bullis Charter School website at www.bullischarterschool.com for more information on this event and school information.

THE TOWN NEWSLETTER

CITY MANAGER'S REPORT

Santa Clara Valley Water District Trails, Parks and Open Space Grant Program.

Staff is currently reviewing the Santa Clara Water District's request for proposals for their Trails, Parks and Open Space Grant Program. Approximately \$900,000 is available annually over the fifteen-year program beginning FY 03-04 to provide financial assistance for the expansion of public access to trails, open space and parks along creeks in Santa Clara County. City Engineer Mintze Cheng is determining which Town projects might be eligible for the program and will present the necessary application/resolution to Council for consideration before the May 30 deadline.

City Manager Maureen Cassingham

Sheriff's Department Presentation on Home Burglary and Identity Theft Protection

The date for the Sheriff's detective's presentation to Los Altos Hills residents regarding home and identity theft protection is Thursday, May 29, 2003 at 7 PM. Location is the Multi-Purpose Room at Bullis School. Announcements to residents will be via the Town's emergency email database, and local press. Steve Garcia, Town Public Safety Officer, will handle the meeting logistics including reservations since space is limited.

Proposed Extension of Comcast Cable Television Franchise

Given the recent AT&T Comcast merger and transfer of control of the Town's Cable TV franchise to Comcast, an extension of the current franchise from its termination date of June 20, 2003 to December 31, 2003 will permit the parties more time to effectively negotiate a new franchise. The extension agreement will be presented for Council consideration at their meeting of May 15 or June 5, 2003.

Update on SBC Project Pronto for Town-wide DSL

The Town has received an update from Stacey Wagner, SBC External Affairs Director, regarding the progress of Project Pronto in providing DSL in Los Altos Hills. Due to recent rulings by the California Public Utilities Commission and the economic downturn, work has been stopped on Project Pronto for 2003. While the Project was first thought to provide DSL service to all Town residents, economics negated the possibility of serving 100% of the Town. Town staff continues to receive service interest inquiries which are forwarded to SBC for them to determine when / if DSL service can be offered.

The Town has been contacted by residents seeking Town intervention with current providers like SBC to require them to provide DSL or Town assumption of the role of direct wireless services (WIFI) provider. The Town has no authority to compel the providers to deliver DSL services. As proposals involving the Town are received, they will be reviewed and scheduled for Council consideration if within the Town's authority as a municipal corporation.

LOS ALTOS SEWER BASIN UPDATE

The Town conveys its sewage to the Palo Alto Regional Control Plant through two different sewer basins, the Los Altos and Palo Alto Basins. In accordance with the 1985 Sewer Agreement with City of Los Altos, the Town has been allocated 1,100 connections in the Los Altos Basin, which serves the southern half of the Town. In 2002, when Town staff tried to process requests for new sewer connections in the Los Altos Sewer Basin, it discovered that the City of Los Altos had sold sewer capacity rights beyond the original 1,100 connections, leaving the Town with just a handful of connections to deal with failing septic systems and new development until a new agreement could be negotiated with Los Altos.

Mintze Cheng, City Engineer/Public Works Director

Until the City of Los Altos grants the Town additional sewer capacity rights, the Town currently has no capacity rights for purchase by residents in the Los Altos Sewer Basin. The Town's Public Works Department has a list of property owners who have excess capacity rights and have expressed willingness to sell their rights to other Town residents. If a resident in the Los Altos Sewer Basin wants to connect to the public sewer and does not currently own a connection right, this list can be obtained from the Town and property owners can directly acquire a right through private negotiations.

It is our hope that Town and City will be able to reach a new Sewer Agreement to provide more connection rights to the Town in later part of 2003.

—Mintze Cheng, City Engineer/Public Works Director

UNDERGROUNDING UTILITIES REPORT

The Undergrounding Committee is meeting on a regular basis to develop plans for educating the residents about the cost and benefits of undergrounding utilities.

The city council recently passed a resolution reaffirming support to offer and encourage undergrounding for the Town. The committee is looking at all of the financial options for funding the effort and will soon send out to the residents a packet of information addressing most frequently asked questions and costs of eliminating the telephone poles and electrical wires in the Town.

Additionally, the committee has been in contact with several communities that have successfully implemented undergrounding. Key issues, in addition to how much it will cost include whether to undertake doing the entire Town or breaking the effort into small grassroots assessment districts. In the long run, economies of scale can be achieved if the entire Town is done. A challenge is minimizing the financial impact on residents.

The committee is developing informational materials for the Town. Once educated on the issues, next the committee will

—Maureen Cassingham, City Manager

survey the Town to determine if there is sufficient interest town-wide project; if not, the survey results will help identify which neighborhoods are most interested.

PLANNING DIRECTOR'S REPORT

Recent Actions and Fast Track Statistics

Town Planning Department approvals for new development since March 2003 through May 13 2003, include the following: six new residences approved through the Fast Track review process, three additions, two pools and five landscape screening plans. The Planning Commission reviewed the following: one secondary unit, one addition, two variance requests, and three landscape plans. The Planning Department completed an analysis of the Fast Track Review program. Since the year 2000, fifty-one single-family residences, 22 secondary units and 17 major additions have been reviewed and approved through the Fast Track program. The report was reviewed by the Planning Commission and forwarded to the City Council

Planning Director Carl Cahill

View Ordinance

The Planning Commission also forwarded its recommendations with regard to a proposed view and sunlight access ordinance modeled after a similar ordinance in Tiburon that has withstood legal challenge. The proposed ordinance establishes property owner rights to view and sunlight access from unreasonable obstruction by the growth of trees. The ordinance also establishes guidelines by which persons may seek restoration of such views or sunlight that existed at any time since they purchased the property or up to 15 years prior to the adoption of the ordinance whichever time period is shorter. Enforcement will be the responsibility of the initiating party. The proposed ordinance also recognizes the value of landscaping for privacy and screening as well as the beauty of the Town's mature scenic trees. The ordinance enumerates various restoration techniques including trimming, thinning, windowing as a means of restoring views and sunlight without the loss of trees. The City Council first considered the proposed ordinance on May 1, 2003. The ordinance will be introduced for adoption by the City Council on May 15, 2003.

Secondary Units

Due to changes in State law (Gov. Code Section 65852.2), effective July, 1 2003, secondary units that comply with a municipality's ordinance requirements and site development standards will no longer be subject to discretionary review (public hearing). For further information please contact the Town Planning Department.

—Carl Cahill, Planning Director

Cahill Family Delivers On the FAST TRACK

Shortly after returning home from attending the March 21st Volunteer Recognition Dinner at the Fremont Hills Country Club, Planning Director Carl Cahill's expectant wife, Heather mentioned to husband Carl that she wasn't feeling quite right.

Baby Allison Rebekah

Since the baby wasn't due for another few weeks, Carl wasn't too concerned. (It should be noted that Carl was in the middle of watching his favorite late night episode of "Star Trek.") However, after hearing De mention her concerns for the second time, Carl suggested that they call the doctor.

Within a few minutes, they were in the car streaking down late night empty streets heading for UCSF Medical Center. Once there, Debbie delivered a beautiful baby girl within a few minutes.

Baby Allison Rebekah happily joins her older brother a sister, Caleb and Laura in the Cahill family. However, she is the first to arrive via the "fast track!" Congratulations!

Adobe Creek Watershed

The Adobe Creek Watershed Group is a grassroots citizen organization whose mission is to address flooding and erosion problems along Adobe Creek in Los Altos and Los Altos Hills (near Edith Park) while protecting habitat.

On April 3 of this year the Los Altos Hills Town Council rejected the Santa Clara Valley Water District's request for easements (one of the requirements for building the project). Opposition to the District's project came from residents who were concerned that environmental issues had not been adequately acknowledged. These residents envisioned a project that better addresses the restoration of Adobe Creek and its associated habitat.

Supporters and opponents of the District project have now come together to form the Adobe Creek Watershed Group and have taken a first step in applying for a Stream Restoration Grant. Receipt of the grant would allow the Watershed Group to further significantly the goal of protecting Adobe Creek, a major environmental resource, while at the same time protecting the neighborhoods through which it runs.

The group requested letters of support for the grant from Los Altos and Los Altos Hills. Both councils scheduled special meetings and voted unanimously to support the grant effort. With support letters from over 30 creekside owners, and let from such respected organizations as the Santa Clara Valley Audubon Society, Hidden Villa, and the Midpeninsula Regional Open Space District, the Watershed Group is off to a great start.

THE TOWN NEWSLETTER

New Open Space Committee Appointed

At the May 1st City Council meeting, nine residents were appointed to the new Open Space Committee. They are: **Diane Cassam, Patty Ciesla, Raylene Collins, Nancy Couperus, Mary Davey, Elaine Nelson, Roger Spreen, Duffy Price, & Jean Struthers.**

Working under the direction of the City Council, the objectives of the new Committee are to: advise and assist the City Council and staff in implementing the policies and goals of

the Open Space and Conservation Element of the General Plan, specifically with respect to acquisition and maintenance of voluntary

conservation easements and open space; to advise and assist the work for the preservation, restoration and enhancement of the public open space; to study and recommend ordinances and resolutions relating to acquisition, construction, maintenance and use of open space within the Town, including the identification of properties for which preservation is recommended; to provide support to conservation education programs and to provide informational forums and programs to the public regarding open space if advised to do so by the City Council; and to develop relationships with neighboring towns and regional entities to identify mutually beneficial open space opportunities.

The Open Space Committee meets at Town Hall the second Friday of the month, from 3 to 5 PM. Meetings are open to the public.

Members of the New Open Space Committee are: L. to R. Diane Cassam, Mary Davey, Duffy Price, Elaine Nelson, Barbara Mordo (Assoc. Member), Patty Ciesla, Ray Collins, Nancy Couperus. (Not pictured: Jean Struthers & Roger Spreen..)

Westwind Barn

Welcome New Barn Manager - Sarah Mallas

Sarah Mallas, the new Westwind Barn manager knew that her destiny would include horses ever since she first got "aback" as a child. The rest is history.

"Kids today are denied the great opportunities to nourish their love of horses. I remember that my parents would drop me off at the barn to spend the day, where I would clean tack and play in the lofts just to be with horses. This is unthinkable today due to the liability issues. It is such a shame," states Sarah.

Sarah Mallas & her horse "Blue."

Sarah's barn manager role and responsibilities include office & facility management, initiating and coordinating services & projects, communications with the members, supervision of the barn employees, and health & welfare of the horses and riders.

Carol Kvingedal, Board member states, "I trust Sarah with my two horses. Safety is her first priority and she is capable of handling any circumstance from sick horses to emergency issues that are bound to arise when dealing with horses."

Currently the barn has reached capacity of 55 horses. There is a wait list of 14 people who wish to stall horses at the barn (priority is given to LAH residents).

Sarah's main priorities are serving the wishes of the Board of Friends of Westwind and the owners of the horses. Even though Sarah is small in stature, she is very big in her understanding of what it takes to manage a barn. Judging by Sarah's hands-on style of management and the progress in organizing and managing - she is a "keeper."

Town Newsletter - Statement of Purpose

To communicate current issues, services, and activities in Los Altos Hills to the residents of the Town and to facilitate, encourage and improve interaction between the residents and Town government. The 2002 Newsletter will be published quarterly in the months of March, June, September, and December. Deadline for the next issue is July 31, 2003.

THE TOWN NEWSLETTER

WHAT IS CHAC?

The Community Health Awareness Council (CHAC) began as a grassroots movement in 1973, led by a group of parents and community leaders who were concerned about the growing problem of alcohol and drug abuse in Mountain View, Los Altos and Los Altos Hills. These cities and their school districts as partners originally supplied 100% of CHAC's support. Since 1973 the demand for, and variety of CHAC's services has grown greatly, and today this partnership provides less than 20% of CHAC's funding. The majority of program funds are now raised through individual donations, corporations, local businesses, churches, service clubs, and foundations.

CHAC's programs, including intern presence in 25 local schools, address a variety of emotional problems that affect children and teens, and cause stress within their families. These problems include drug and alcohol abuse, physical and psychological abuse, teen pregnancy and truancy, domestic violence, gang participation, child custody conflicts, premature sexual behavior, suicide prevention, economic hardship, and other crises or situations that are destructive to self or family. All of CHAC's programs are designed to protect young people from high-risk behavior while building personal assets such as school success, valuing diversity, maintaining good health, and the ability to delay gratification that will ensure that they have the greatest chance for success in life.

—Rory Kaplan, LAH CHAC Representative

Welcome Aboard

New Parks & Recreation Director

How many times do you find a bona fide professional baseball umpire working in city government? Well, LAH has one!

Jimmy E. Forbis, Jr. recently was appointed as the new Parks & Recreation Supervisor to oversee the coordination and program development for the Town's recently expanded Parks & Recreation Department.

Jimmy Forbis, Parks & Recreation Director

Following his academic career, he worked six months a year as a professional baseball umpire, working in the Pioneer, NY-Pennsylvania, Midwest, and California Leagues. He umpired over 500 professional baseball games in four years.

His goals for the new Parks & Recreation department are to see the department become a clearinghouse for related activities that take place in the Town. There are over 1500 children under 17 years of age in the Town who can participate in the Parks & Recreation programs. Sharing his experiences as a baseball umpire will no doubt be meaningful to many of the Little Leaguers, too. Welcome aboard, Jimmy!

Open Space Committee Educational Event

Photo by Jitze Couperus

Pictured above is nine year old Pinewood School student and LAH resident, Evan Cranston, holding the Great Horned Owl which made an appearance at the Joint Audubon Society and Open Space event held on March 10th. The new Open Space Committee will hold similar events throughout the year. The next event will be a workshop on Conservation Easements and will be held in collaboration with the City of Woodside Open Space Committee on June 26, 2003 1-6 PM in Woodside.

IN MEMORIAM

RICHARD A. LAMPARTER

It is with great sadness that we report the passing of Richard A. Lamparter, who died of a heart attack on April 20, 2003. Up until his last day he enjoyed hikes, good wine, travel, photography and time spent with his family. He was the beloved husband of Los Altos Hills resident and community volunteer, Barbara Lamparter.

As a volunteer for the community, Richard was dedicated to the preservation of the rural nature of Los Altos Hills. He served on town committees and was always the first to volunteer to assist in the annual Town-sponsored picnic and other community activities. Richard enjoyed hiking the pathways system and was an ardent supporter of the open space initiative and the pathways preservation referendum. He will be missed.

Richard A. Lamparter 1935-2003

A Los Altos Hills Open Space Memorial Fund has been established in his memory.

Westwind Barn Preservation Efforts Underway - New Group Formed

As a result of the successful passage of the Los Altos Hills Open Space and Recreation Initiative, a new group, "Supporters of Westwind Community Barn" has been formed to support Westwind Barn as an asset for the community. On May 3rd the group held their first community meeting at the Barn to gather ideas for new programs. The group would like to invite interested residents and friends to participate in the efforts to preserve the Barn. The first fundraiser is planned for October 2003. The group expects to be a §501(c)(3) nonprofit organization with the dual mission of restoring the Westwind Barn and its facilities and providing new on-site environmental, educational, and arts programs for the community. The group intends that the new programs, such as art classes and environmental seminars, would not adversely impact the neighbors or the operation of the Barn. Founders of the new group are local residents: **Carolyn Appel, Colette and Kim Cranston, Nancy Couperus, Valerie Metcalfe, and Elaine Nelson.**

The Westwind Barn which is a community asset provides a year-around riding program

Antique Farm Equipment Donation

At their May 1st meeting, the LAH City Council accepted a donation of an antique 1906-07 Bean Company Orchard Sprayer as an addition to the Town's antique farm equipment collection.

The Bean Company (later part of Food Machinery Corporation) manufactured the equipment. The brothers Alton & Leonard Burkhart, used the sprayer for many years to spray many acres of apricots in Los Altos Hills area. The Burkhart family lived in their home built in 1923 on the corner of Fremont and La Paloma Roads.

Carolyn Burkhart Snell and her three sisters donated the equipment. The Los Altos Hills Historical Society maintains the collection of antique farm equipment under a shelter next to the Heritage House on the grounds of Town Hall.

SUMMER 2003

OHLONE CAMP AT WESTWIND BARN

Ages 6-13

Session 1

June 16 - June 20

8:30 AM to 12:30 PM

Session 2

June 23 - June 27

8:30 AM to 12:30 PM

Nature hikes, Ohlone Native American folklore, crafts and outdoor games. This year, we will offer two 1-week sessions. Taught by California State Parks Cultural Docent, Ms. Marian Booth. Registration forms can be obtained at Town Hall or call (650) 941-7222 ext. 241 for more information.

Skyhawks Sports Camps

Soccer	Ages 6 to 14	July 21-25 (9A-3P)
Baseball	Ages 6 to 12	Aug 4-8 (9A-3P)
Basketball	Ages 7 to 14	July 14-18 (9A-3P)
Mini-Hawks	Ages 4 to 7	June 23-27 (9A-12P)
	Ages 4 to 7	July 7-11 (9A-12P)
Flag Football	Ages 10 to 12	July 7-11 (1P-4P)
	Ages 7 to 9	July 7-11 (9A-12P)
Multi-Sport	Ages 7 to 14	June 23-27 (9A-3P)
Beginning Golf	Ages 5 to 8	Aug 18-22 (9A-12P)
	Ages 9 to 11	Aug 18-22 (1P-4P)

Skyhawks tailors its programs for beginning and intermediate players. Groups will be divided by age and then ability. Fun and enjoyment are the priorities of all Skyhawks programs. Emphasis is on learning the skills and techniques in a low pressure, non-competitive environment. Registration forms can be obtained at Town Hall or by visiting www.skyhawks.com. For camp updates, questions, and information, please visit the town website under the community section, or please call (650) 941-7222 ext. 241.

Pathway News

The March Pathway Committee Meeting welcomed back three re-appointed members and two new added members to their committee team. Re-appointed for another four years are **Nancy Ewald, Fred Fallah, and Ginger Summit**. The new appointees are **Dick Cassam and Chris Vargas**. With the enlarged membership, the committee expects to accomplish its usual duties, plus a few more. These new goals are: working more closely with the Santa Clara County Bicycle Advisory Committee with the hopes of receiving future grant money for additional roadside paths in Town; reviving the scheduled monthly "fun and social" walks on pathways; organizing a "walking group" of citizens who will assist the committee with an ongoing review of the condition of the many paths in Town, as well as just meeting other residents in Town who love to walk the pathways.

The committee also hopes to assist the Town Engineer and Crew, by asking Town residents who regularly walk the paths to use the Path Maintenance Request form printed below for any path issues they might encounter on their walks/runs, rides, etc. Please send the forms to Town Hall and the Pathway Committee will review them for repair or maintenance. Please also feel free to e-mail the Committee with any questions or suggestions at lahpathways@hotmail.com.
