Note: The target response time for priority level 1 calls is 9 minutes, for priority level 2 calls it is 14 minutes, and for priority level 3 calls it is 25 minutes. Response times are only available for some calls for service and not for self-initiated activity.

RESPONSE TIME SUMMARY

RESPONSE TIME SUMMARY				
#	DATE/TIME	RESPONSE TIME	EVENT	COMMENTS
1	1/3/23 4:55 PM	56m 29s	23-003-0320	While in route to this report of loud music, the deputy was re-routed to a report of a suspicious person who appeared to casing vehicles in the area. The deputy handled the suspicious person call and then responded to the loud music event. This delay caused us to miss our target response time to priority 3 calls by approximately 31 minutes.
2	1/7/23 6:28 PM	21m 25s	23-007-0248	At the time of this report of a fallen tree blocking the roadway, the deputy was assisting with an injury accident in another beat area. Once clear from the accident, the deputy responded to handle this road hazard. The delay caused us to miss our target response time by about 7 minutes.

3	1/8/23 7:59 AM	52m 16s	23-008-0065	This was another report of a tree that had fallen and was blocking the roadway. The deputy was just beginning his shift for the day at the Cupertino substation. In the interest of being fiscally responsible, the decision was made to allow this call to pend until the day shift deputy could respond. This delay caused us to miss our target response time to priority 2 calls by about 38 minutes.
4	1/5/23 10:11 PM	52m 1s	23-005-0376	This was an unusual call of a solo-vehicle accident, with the driver and vehicle no longer on the scene of the collision. Once the deputies were able to locate the scene of the collision, contact the driver, and respond to the address, there was a delay that resulting in us missing our target response time by 27 minutes.
5	1/4/23 3:42 PM	25m 5s	23-004-0241	Due to inclement weather, deputies were responding from call to call in an effort to keep up with weather related alarm calls. The high volume of weather-related calls caused a slight delay in response to this alarm, resulting in us missing our target response time by about 11 minutes.
6	1/4/23 9:18 PM 1/4/23 9:34 PM	37m 57s 37m 32s	23-004-0369 23-004-0379	Alarm calls are minimum two deputy response for officer safety issues. Deputies were attending to multiple weather-related calls for service and were handling alarms and other issues call-to-call. The high volume of incoming weather-related alarm calls at this time cause is to miss our target response times to these events.
