Special Inspection and Testing Agreement

BEFORE A PERMIT CAN BE ISSUED: The owner or owner’s agent, the engineer or architect of record, and the Special Inspector shall complete two (2) copies of the attached Special Inspection and Testing Schedule including the requirement acknowledgments to the Building Division for review and approval. It is recommended that the contractor also sign the form if one has been selected for the project. A pre-construction conference with the parties involved may be required to review the special inspection requirements and procedures.

APPROVAL OF SPECIAL INSPECTORS: Each special inspector shall be approved by the Building Division, prior to performing any duties. Special inspectors may be approved to perform special inspection on the subject project provided they provide their qualifications to the Building Official for evaluations. The evaluation process may also require a personal interview between the prospective special inspector and the Building Official. Approved special inspectors shall display approved identification, as stipulated by the Building Division, when performing the function of a special inspector.

A special inspection and testing shall meet the minimum requirements of CBC Section 1701. The following conditions are also applicable:

A. Duties and Responsibilities of the Special Inspector
   1. **Observe Work.** The special inspector shall observe the work for conformance with the Building Division approved (stamped) design drawing and specifications and applicable workmanship provisions of the SBC. Architect/Engineer-reviewed shop drawings may be used only as an aid to inspections.

   Special inspections are to be performed on a continuous basis, meaning that the special inspector is on site in the general area at all times observing the work requiring special inspection. Periodic Inspections. If any, must have prior approval by the Building Official based on a separate written plan reviewed and approved by the Building Official and the project engineer or architect.

   2. **Report Nonconforming Items.** The special inspector shall bring nonconforming items to the immediate attention of the contractor and note all such items in the daily report. If any item is not resolved manner or is about to be incorporated in the work, the special inspector shall immediately notify the Building Official by telephone or in person, notify the engineer or architect, and post a discrepancy notice.

   3. **Furnish Daily Reports.** On request, each special inspector shall complete and sign both the special inspection record and the daily report form for each day’s inspections. These records shall remain at the jobsite with the contractor for review by the Building Inspector.
4. **Furnish Weekly Reports.** On request, the special inspector or inspection agency shall furnish weekly reports of tests and inspections directly to the Building Official, project engineer or architect, and others as designated. These reports must include the following:
   a. Description of daily inspections and tests made with applicable locations;
   b. Listing of all nonconforming items;
   c. Report on how nonconforming items were resolved or unresolved as applicable; and,
   d. Itemized changes authorized by the architect, engineer and Building Division if not included in nonconformance item

5. **Furnish Final Report.** The special inspector or inspection agency shall submit a final signed report to the Building Official stating that all items requiring special inspection and testing were fulfilled and reported and, to the best of his/her knowledge. In conformance with the approved design drawings, specifications, approved change orders and the applicable workmanship provisions of the CBC. Items not in nonconformance, unresolved items or any discrepancies in inspection coverage (i.e., missed inspections, periodic inspections when continuous was required, etc) shall be specifically itemized in this report.

B. **Contractor Responsibilities**

   1. **Notify the Special Inspector.** The contractor is responsible for notifying the special inspector or agency regarding individual inspections for items listed on the attached schedule and as noted on the Building Division approved plan. Adequate notice shall be provided so that the special inspector has time to become familiar with the project.
   2. **Provide Access to Approved Plan.** The contractor is responsible for providing the special inspector access to approved plans at the jobsite.
   3. **Retain Special Inspection Records.** The contractor is also responsible for retaining at the jobsite all special inspection records submitted by the special inspector, and providing these records for review by the Building Division Inspector upon request.

C. **Building Division Responsibilities**

   1. **Approve Special Inspection.** The Building Official shall approve all special inspection requirements.
   2. **Monitor Special Inspection.** Work requiring special inspection and the performance of special inspectors shall be monitored by the Building Inspection Division. His/her approval must be obtained prior to placement of concrete or other similar activities in addition to that of the special inspector.
   3. **Issue Certificate of Occupancy.** The Building Division may issue a Certificate of Occupancy after all special inspection reports and the final report have been submitted and accepted.
