**RE: UPDATED GEOTECHNICAL
PLAN REVIEW
TENTATIVE PARCEL MAP
RESIDENTIAL SUBDIVISION
28030 NATOMA ROAD
LOS ALTOS HILLS, CALIFORNIA**

Dear Ms. Ko:

As requested, we have reviewed the tentative parcel map plans for your proposed residential subdivision at the 18-acre property located at 28030 Natoma Road in Los Altos Hills, California for conformance with the recommendations in our report. As you know, we performed a geologic and geotechnical investigation for the subdivision and presented the results in our report dated May 15, 2014.

We reviewed the geotechnical aspects of the following updated plans for the subdivision: tentative parcel map sheets 1, 2, 3, 4, 7, and 8, issue-dated March 14, 2017, prepared by Wilsey Ham.

Based on our review, it is our opinion that the conceptual improvements shown on the plans referenced above have been prepared in essential compliance with the recommendations in our geotechnical report.

We make no warranty, expressed or implied, for the services we perform for this project. Our services are performed in accordance with geologic and geotechnical engineering principles generally accepted at this time and location.

Please call if you have questions or comments about site conditions or the results of our review of the updated plans for your proposed subdivision and associated site improvements.

Very truly yours,

ROMIG ENGINEERS, INC.
